

21 DAYS SQL CHALLENGE

DAY 11

BY AMRUHA AHMED

DAILY CHALLENGE

Find all unique combinations of service and event type from the services_weekly table where events are not null or none, along with the count of occurrences for each combination. Order by count descending.

```
SELECT
DISTINCT service, event,
COUNT(*) AS "Count of Occurrence"
FROM services_weekly
WHERE event IS NOT NULL AND event <>"None"
GROUP BY service, event
ORDER BY COUNT(*) DESC;
```

service	event	Count of Occurrence
general_medicine	flu	6
ICU	flu	5
emergency	flu	5
surgery	donation	5
surgery	strike	4
emergency	donation	4

The background features two large, flowing, and swirling liquid-like shapes on a solid black background. These shapes are highly reflective and iridescent, displaying a spectrum of colors including blue, green, yellow, orange, and red. They appear to be made of a viscous, glossy material, possibly oil or paint, that has been manipulated to create these fluid, organic forms. The central text is positioned between these two decorative elements.

THANK YOU

for your time and attention
